Abstract

PROBLEM TO BE SOLVED: To provide an image forming device enabling a user to set the size of a sheet surely and capable of informing mis-setting even if the user makes a mistake in setting sheet size.

SOLUTION: The user is made to be conscious of setting sheet size by arranging a sheet size setting means 127 near a handle 134 and a cancel means 133, which are operated when a sheet containing section 1 is drawn from a device body 101. The device body 101 is provided with a detection means to detect sheet size, a comparison means to compare the sheet size detected by the detection means with the sheet size set by the sheet size setting means 127, and a display section to display the comparison result of the comparison means for displaying the comparison result in the case where the detected sheet size is different from the set sheet size.
